Mark McHale promoted to Vice President of Arrow's Enterprise Computing Solutions Business in the UK and Ireland

London, UK. - August 31, 2017 – Arrow Electronics announced that it has promoted former managing director for the Data Centre Solutions division of Arrow, Mark McHale, to vice president of Arrow's Enterprise Computing Solutions business in the UK and Ireland. Mark McHale succeeds Jesper Trolle who has been promoted to president Americas of Arrow's Enterprise Computing Solutions business.

Mark joined Arrow just over thirty years ago and has worked towards a successful career in sales at the company, becoming a member in the UK and Ireland management team over a decade ago. His experience in the IT industry will support the UK and Ireland in its investment strategy by identifying game changing technologies to provide the channel with a unique ecosystem of established and emerging vendors that complement one another to meet any customers' desired outcome.

"It's an exciting time to be part of the transformation of Arrow. I am pleased to be given the responsibility for growing this area of the ECS business and being part of its future. The strength of our region combined with the breadth of our portfolio allows us to work with all areas of the Arrow business to support our global "sensor to sunset" strategy. Arrow is the only global organisation that can provide our customers with an entire spectrum of solutions from components, intelligent systems, Enterprise Computing Solutions, Digital, IoT through to sustainable solutions and beyond," said Mark.

###

About Arrow:

Arrow Electronics (www.arrow.com) is a global provider of products, services and solutions to industrial and commercial users of electronic components and enterprise computing solutions. Arrow serves as a supply channel partner for more than 125,000 original equipment manufacturers, contract manufacturers and commercial customers through a global network of more than 465 locations serving over 90 countries.
