## **Arrow UK is F5's best-in-class training provider in EMEA**

**London, UK. – July 13, 2017** – Arrow Electronics has been awarded “Best Performing Authorised Training Centre (ATC) in a Single Country in EMEA – 2017” by F5 Networks. F5 handed over the award to Arrow at its annual EMEA ATC conference in Madrid, in recognition of Arrow teaching more students about F5's products and solutions than any of its training provider competitors in the EMEA region.

Arrow is an ATC and has delivered F5 certified training beyond F5's expectations. The training courses and student qualifications that Arrow provides cover the configuration and administration of F5's key security and network management solution platform, BIG-IP.

“I am delighted that we've been recognised for the level of standard we provide, following the introduction of this award by F5 in 2015”, said Jesper Trolle, Vice President, Arrow ECS North West Europe and APAC. “We are in the process of establishing even more F5 training courses and staying committed to offering the best training for our reseller customers and end users.”

“F5 EMEA Knowledge Services is pleased to award Arrow ECS UK the award for most students taught in a single country for the third year in a row. Arrow ECS is an F5 Authorised Training Centre (ATC) and has consistently delivered F5 certified training to a high standard for over eight years,” said James Dean, EMEA Senior Training Manager F5 Networks.

### **About Arrow Electronics**
